

Position Title: Supply Chain Intern

FLSA Status:

Reports To: VP, Global Supply Chain

Grade:

Job Summary and Primary Functions

Tempel is currently looking for interns for summer of 2020 in our supply chain organization.

These interns will work under immediate supervision while performing requested tasks alongside professionals who perform these roles. Generally, our internship is part of a summer program with an assigned mentor.

These positions will:

- Enhance the Tempel procurement and material planning processes.
- Provide analytical support and participate in assigned projects
- Develop and expand knowledge of supply chain strategy, steel procurement, supplier and market analysis, best practice benchmarking, and sourcing effectiveness
- Increase knowledge of purchasing strategies and activities to meet specific internal business unit requirements through assigned activities and projects.
- Support business unit reporting and bid processes
- Provide business insight through analyzing complex data

You will learn:

- Basics to understanding a manufacturing P&L statement
- Overview of material planning & sourcing activities
- Project management and negotiation skills
- Basic/intermediate Oracle
- Advanced Excel
- Proper interaction with other departments

Competencies

- Demonstrates a clear understanding of policies and procedures of operation; complies with and applies policies and procedures appropriately.
- Keeps current with and effectively applies new work methods, skills, and technologies to complete work.
- Demonstrates the willingness and competence to work in multiple functional areas.
- Plans, prioritizes, and organizes work effectively to produce measurable results.
- Assesses situations accurately and determines appropriate action.
- Identifies and utilizes resources effectively and responsibly.
- Takes ownership for own self-development.

Minimum Qualifications

- Actively pursuing a Bachelors degree in Supply Chain, Finance, Accounting, Statistics, Business Administration, Data Analytics, Engineering, Actuarial Science or related field.
- Currently enrolled in an accredited undergraduate program and will be enrolled in the fall of 2020.
- Rising Junior or Senior
- Microsoft Office experience
- Minimum cumulative current grade point average of 3.0 out of 4.0 scale
- Be legally eligible to work in the U.S indefinitely
